# GEOGRAPHY

| | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
|---|---|---|---|---|---|---|
| **Main focus** | **Around our school**<br>**Pittville Park**<br>**The seaside** | **India**<br>**Climate Change** | **Food and Fairtrade**<br>**Cheltenham** | **South America – Brazil**<br>**Biomes** | **A journey from North to South America**<br>**Europe** | **Rivers** |
| **Locational knowledge** | Begin to **name** and **locate** the world's seven continents and five oceans.<br><br>Begin to **name** and **locate** the four countries of the UK and surrounding seas.<br><br>**Recognise** the town in which they live. | **Name**, **locate** and **identify** characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas.<br><br>**Identify** the name and locate the world's seven continents and five oceans.<br><br>**Locate** the equator and classify hot and cold countries around the world. | **Name** and **locate** some counties and cities (beyond capitals) of the UK on maps<br><br>**Identify** and **explain** the position of the Equator, the tropics of Cancer and Capricorn on maps, globes. | **Explain** the significance of the Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle.<br><br>Use maps, globes and atlases to **locate** Brazil and places within it.<br><br>Use maps and atlases to **locate** environmental regions of the World. | Use maps to **locate** the world's countries with a focus on Europe and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities.<br><br>Use longitude and latitude to **locate** features on a map; the Prime/Greenwich Meridian and time zones (including day and night). | **Name** and **locate** counties and cities of the United Kingdom, **identifying** their physical features, including mountains, seas and rivers.<br><br>**Name** and **locate** major world rivers identifying sources and seas they flow into. |
| **Place knowledge** | **Observe** and **describe** the human and physical geography of my home, the school and the local area, in the UK.<br><br>**Compare** the local park with what it used to look like.<br><br>**Identify** and **compare** different beaches.<br><br>**Describe** similarities and differences between the beach and the local park. | **Compare** the UK with a contrasting country in the world (India).<br><br>**Compare** a local city/town in the UK (Cheltenham) with a contrasting city/town in India (Mumbai). | **Demonstrate understanding** of geographical similarities and differences through the study of human geography of a region of the UK (Gloucestershire/ Cotswolds).<br><br>**Demonstrate understanding** of geographical similarities and differences through the study of physical geography of a region of the UK (Gloucestershire/ Cotswolds). | **Explain** similarities and differences, **comparing** the physical geography of a region of the UK (Cheltenham / Gloucestershire) and a region of South America, (Rio de Janeiro, Amazon rainforest in Brazil). | **Explain** geographical similarities and differences through the study of human geography of a region Europe (Annecy – France)<br><br>**Explain** geographical similarities and differences through the study of physical geography of a region of Europe (Annecy – France) | **Evaluate** similarities and differences between different rivers, **applying** their knowledge of river features.<br><br>, |
| **Human and physical geography** | **Identify** seasonal and daily weather patterns in the United Kingdom.<br><br>**Identify** the location of hot and cold areas of the world in relation to the Equator and the North and South Poles, e.g. savannah. | **Compare** the seasonal weather patterns of India, e.g. monsoons, with weather in the UK.<br><br>**Recognise** the effects of greenhouse gases on the climate.<br><br>**Recognise** how we have an impact on climate change and what we, as individuals /community, can do to tackle some of the causes. | **Demonstrate understanding** of key aspects of human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources through food and Fair trade.<br><br>**Summarise** how Fair Trade works and who it benefits. | **Demonstrate understanding** of key aspects of physical geography, including: climate zones, biomes and the water cycle.<br><br>**Synthesise** the human impact of activity on these areas **explaining** links to climate change. | **Explain** and **demonstrate understanding** of key aspects of physical geography, including climate zones, mountains and volcanoes and earthquakes.<br><br>**Explain** and **demonstrate understanding** of key aspects of human geography, including types of settlement and land use, economic activity land the distribution of natural resources in Europe. | **Explain** and **demonstrate understanding** of key aspects of physical geography, including mountains and rivers.<br><br>**Empathise** with communities facing the impact of flooding.<br><br>**Justify** cost and environmental damage of flood defences. |

| | | | | | | |
|---|---|---|---|---|---|---|
| **Geographical skills and fieldwork** | Begin to use world maps, atlases and globes to **identify** the countries, continents and oceans.<br><br>**Investigate** surroundings using simple directional language (e.g. near, far, left, right).<br><br>**Identify** where they live on a simple map (1:1250).<br><br>**Select** details and simple labels to add to a teacher-prepared sketch.<br><br>Take digital photos of their local area.<br><br>**Categorise** simple data, creating pictograms of how children travel to school.<br><br>**Conduct** a survey of how many people in the park are walking their dogs.<br><br>**Recognise** and use simple compass directions (N, S, E, W) and locational and directional language to **describe** the location of features and routes on a map (1:1250).<br><br>**Devise** a simple map and **select** basic symbols for a key.<br><br>Use simple fieldwork and observational skills to **recognise** the geography of the surrounding area (e.g. Pittville Park) including key human and physical features, using a range of methods - photos with ipads, drawings, simple maps. | **Recognise** simple compass directions (N, S, E, W) and use locational and directional information to **describe** the location and features of India.<br><br>Use world maps, atlases and globes to **identify** the countries, continents and oceans being studied.<br><br>Use plan perspectives or aerial photos to **locate** landmarks/ features in India / Mumbai.<br><br>Use simple recording techniques, e.g. smiley / unhappy faces, to **describe** which parts of India they would like to visit or not, and why.<br><br>Conduct interviews by **selecting** own questions to find out what India is really like. | Use maps and atlases appropriately by using contents and indexes.<br><br>**Demonstrate understanding** of 4-figure grid references.<br><br>Use some simple OS maps (1:10000) and **recognise** some symbols.<br><br>Take digital photos of the local area, **comparing and contrasting** images and making annotations.<br><br>**Describe** routes and directions using compass points (N, S, E, W).<br><br>**Collect** and **record** evidence, e.g. questionnaire and tally chart, through written and audio recordings.<br><br>**Communicate** in ways appropriate to task, e.g. persuasive writing, charts and graphs.<br><br>Use maps, atlases, globes and digital/computer mapping to **locate** countries with support.<br><br>Use symbols and keys (including the use of Ordnance Survey maps), to **demonstrate understanding** of areas of the UK, Cheltenham and Gloucestershire.<br><br>Use fieldwork to **observe** and **present** the human and physical features in the local area, e.g. methods of travel to work, using more detailed sketch maps with simple annotations, plans and digital technologies. | Use contents, indexes and coordinates to find a location (e.g. Cheltenham to Heathrow/ tourist landmarks in Rio de Janeiro).<br><br>**Plan** a map for a route or globe using digital technologies, e.g. Flight Radar24.<br><br>**Reason** where in the world a specific place is, using a variety of maps including satellite, aerial, political, physical, to understand 'from space to place'.<br><br>**Describe** route and location using 8 compass points (N, S, E, W, NW, NE, SW, SE).<br><br>**Demonstrate understanding** of 4-figure grid references using maps with a scale of 1:250000.<br><br>Use basic OS map skills, including using symbols and keys to build their knowledge of the wider world, e.g. the study of biomes.<br><br>Draw accurate sketch maps including **descriptive** and **explanatory** annotations.<br><br>**Compare and contrast** climatic data including temperature and rainfall in different biomes.<br><br>Use maps, atlases, globes and digital/computer mapping to **locate** countries and **describe** features studied independently. | **Locate** countries in North, Central and South America on a world map and in an atlas.<br><br>**Describe** route and location, using more complex OS map skills and symbols. Use the 8 compass points to plan a route.<br><br>**Demonstrate understanding** of four and six-figure grid references to find landmarks in a place in Europe.<br><br>**Apply** knowledge of latitude and longitude to time zones.<br><br>Use maps, atlases, globes and digital/computer mapping to **locate** countries and **describe** features – use latitude and longitude to **locate** cities and landmarks in North and South America. | Use fieldwork to **observe**, **measure**, **record** and **present** physical features using a range of methods, including sketch maps, plans and graphs, and digital technologies.<br><br>Link the eight points of a compass to degrees on a compass, use four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to **demonstrate understanding** of the UK and the wider world in the context of rivers and to answer questions.<br><br>Conduct a land use survey, **analysing** evidence and **reaching informed conclusions** from data on flooding.<br><br>**Collect**, **analyse** and **present** qualitative data and make comparisons from the results.<br><br>Design and use questionnaires to obtain views of the local community, **reaching informed conclusions** from the data.<br><br>Use field sketches which show an understanding of pattern, movement and change as well as geographical processes. |
